

Domestic Equity

1607

CAPITAL PARTNERS

4th Quarter 2017

Investment Objective:

The 1607 Capital Partners Domestic Equity strategy seeks to achieve long-term capital growth through investments in exchange-traded closed-end funds that invest primarily in the equity securities of companies located in the United States of America. Specifically, this targets a total annualized “net rate of return on assets”, which exceeds, on a long-term basis (defined as one market cycle), the return of a benchmark representing the U.S. stock market.

Investment Strategy:

1607 Capital Partners uses a unique, bottom-up, value-oriented approach to evaluate closed-end funds within the international arena. Few other firms employ this process and the 1607 investment team has identified key inefficiencies within the closed-end fund universe that have consistently created value over the last several decades. The firm's philosophy is based upon the belief that discounts and/or premiums will tend to revert to the mean over the long-term. Hence, the investment team purchases funds when discounts look attractive to their own history and sells when they look expensive.

Competitive Advantage:

- **Unique investment vehicle:** Closed-end funds provide opportunities to buy top-rate managers at a discount
- **Few competitors:** There are only a few institutional managers in the closed-end fund space which allows 1607 Capital to take advantage of many of the inefficiencies existing in the retail market.
- **Experienced team:** With more than 100 years of combined experience specific to the closed-end fund universe, 1607 Capital has one of the most experienced teams currently investing in this space.
- **Dedicated to closed-end funds:** Since inception, 1607 Capital has been solely focused on investing in closed-end funds.
- **Fully diversified portfolios:** 1607 Capital's portfolios are extremely diversified by holding a broad mix of diversified funds.
- **Superior client service:** As a boutique firm, 1607 Capital is flexible in making business decisions and able to provide a superior level of service to each client.
- **Lack of investment style bias:** At different points in the typical market cycle, different investment styles tend to outperform others (e.g. - growth vs. value). With abundant opportunities across the spectrum of investment strategies, the firm is able to favor funds with the best opportunity to outperform, with no bias toward a specific style.

Strategy Inception:

February 28, 2017*

Firm AUM:

\$3,620M

Strategy AUM:

\$61M

Minimum:

Sep Acct: \$25M

Fee Schedule:

Performance Disclosure

Past performance is no guarantee of future results and a loss of principal can occur.

Inherent in any investment is the potential for loss since the value of investments and the income derived from them can go down as well as up.

Gross of fees returns are calculated gross of management and custodial fees and net of transaction costs. Net of fees returns are calculated net of actual management fees and transaction costs and gross of custodial fees. Both returns are calculated net of all withholding taxes on foreign dividends. Accruals for dividends and interest are included in calculations, and performance results reflect the reinvestment of dividends and other earnings. The returns shown include all of the accounts participating in the strategy and the actual fees paid by those accounts. Consequently, the return shown is not representative of any one account, nor should it be construed to be the return of any new account.

Performance is as of 12/31/2017.
